

FERRY FARE PROPOSAL

San Juan Island Day-of-Week

Following direction from the San Juan community, the TPC proposes a new day-of-week fare structure.

- ✦ The new fare structure will more closely match fares and demand for services on the San Juan Island routes.
- ✦ The cost of lower early week fares are offset by higher summer surcharges -- vehicle surcharge increased from 25% to 35% and a new passenger fare surcharge of 20%.
- ✦ Coupon book users are unaffected by day-of-week pricing.

Implications of Day-of-Week Pricing
